Dear Alan:

In regard to your letter of November 17 to Bill Cowles, this is to acknowledge, as the State Environmental Board voted on November 12, that if an application for a permit to construct a 46 K.V. transmission line from Rawsonville to Stratton by the Central Vermont Public Service Corporation was indeed made, it should be filed with the District #8 Environmental Commission, which comprises Bennington County.

I have also informed the chairman of that District Commission and the chairman of the Windham District Commission of this decision.

If I can be of any further assistance, please feel free to contact me.

Sincerely,

ROBERT S. BABCOCK, JR.
Executive Officer
Environmental Board
