LAND USE PERMIT
AMENDMENT

CASE No. 1R0436-1-EB LAWS/REGULATIONS INVOLVED
APPLICANT New England Tel. & Tel.Co. 10 V.S.A., Chapter 151
ADDRESS P.O.Box 669 (Act 250)
Rutland, VT 05701
and
Central Vermont Public
Service Corporation
77 Grove Street
Rutland, VT 05701

The Vermont Environmental Board hereby issues a Land Use Permit Amendment pursuant to the authority vested in it in 10 V.S.A., Chapter 151. The "permittees" are New England Telephone and Telegraph Company ("NET") and Central Vermont Public Service Corporation ("CVPS"). Application #1R0436 was filed for electric and telephone routing running 8876 feet in length from the Pittsford/Brandon town line northerly to the vicinity of the Brandon Motor Lodge. This route will run along U.S. Highway 7 in the Town of Brandon, Vermont. A related application, #1R0435, was filed for electric and telephone routing in the Town of Pittsford, Vermont running from a point 0.9 of a mile north of State Aid Highway #2 to the Pittsford/Brandon town line. This second application is not at issue here. The Permittees, their assigns and successors in interest, are obligated by this permit to complete and maintain the project only as approved by the District #1 Environmental Commission in accordance with the conditions of Land Use Permit #1R0436, except as amended herein.

CONDITIONS

1. Condition #1 of Land Use Permit #1R0436 is amended to read as follows:

The project shall be completed as set forth in Findings of Fact and Conclusions of Law #1R0435 and #1R0436, except as modified by the Findings of Fact and Conclusions of Law of the Environmental Board, #1R0436-1-EB, in accordance with the plans and exhibits stamped "Approved" and on file with the District Environmental Commission, and in accordance with the conditions of this permit, as amended. No changes shall be made in the project without the written approval of the District Environmental Commission.

2. Condition #5 of Land Use Permit #1R0436 is amended to read as follows:

According to the agreement reached between NET and the Brandon Planning Commission, NET will bury approximately 2500 feet of its proposed telephone cable commencing at Pole No. 119, designated on Plan 22, and filed with the

District Commission. The buried cable will continue south along the easterly side of U.S. Highway 7 to a point where four, white NET carrier cabinets are located. These cabinets are located opposite the parking lot of the Otter Valley Union High School. The exact length of the buried cable segment will be determined by the distance between these points. Quick growing trees, such as white pines or hemlocks, are to be planted by NET to screen the carrier cabinets. Existing telephone poles are to be utilized where feasible for the new toll line system, and new poles are to be placed, if feasible, where trees skirt the highway.

All conditions of Land Use Permit #1R0436 remain in full force and effect except as amended herein.

Dated at Montpelier, Vermont this 14th day of May, 1982.
