**Priority Housing Project (PHP) Flowchart Through 7/1/2026**

**Definition of Mixed Income Housing**

- **Rental**: For at least 15 years after being placed into service, at least 20% of the units have total annual cost of renting (rent, utilities, and condominium association fees) that do not exceed 30% of the gross annual income of a household at 80% of the affordable housing standard.

- **Owner-Occupied**: At least 20% of housing units have annual ownership costs (principal, interest, taxes, insurance, and condominium association fees) that do not exceed 30% of the gross annual income of a household at 120% of the affordable housing standard.

The affordable housing standard is highest of the following income amounts, per HUD standards: (i) the county median income; (ii) the standard metropolitan statistical area median income; or (iii) the statewide median income adjusted for the number of bedrooms -- as established and published annually by VHFA.

**Definition of Mixed Use**

- **Mixed use** means construction of both mixed income housing and construction of space for any combination of retail, office, services, artisan and recreational and community facilities.

- Mixed use does not include industrial use.

At least 40% of the gross floor area must be housing that meets the definition of mixed income housing.
