Dear Vermont Natural Resource Board,

Subject : Comments and AOD for 5R0891-22

I did not appeal permit 5R0891-22 in September 2023 thinking that Adam Stone Trucking would adhere to the very lenient rules and regulations set forth . Well that is not happening ! The North -Rear driveway closest to me as an adjoining property owner was not to be used from 7PM-7AM . I got woke up at 12:08AM on January 15, 2024 by a large sleeper truck pulling a long oil tanker entering this Rear-North driveway ! I have a video of this violation and many more violation videos . This North - Rear driveway WAS NOT even in the original permit , they just made it and somehow labeled it “ AS BUILT “ !

I propose a \$20,000.00 , Twenty -thousand dollar fine imposed on Adam Stone Trucking and this North-Rear driveway to be totally discontinued with concrete barriers placed across the entrance and exit and turned back to grass with topsoil and grass seed . If this is done then we know it will not happen again ending in more violations .

Another concern I have is pressure washing truck engines and chassis's on this lot . Bellavance trucking has a building where they drive their trucks and trailers into and pressure wash them . They capture the water from pressure washing ,filter it , reclaim it and use it over. Adam Stone trucking pressure washes grease, oil and debris off their truck's engines and chassis's and trailers right onto the ground . THIS IS LEGAL ?

At the first meeting we had at the public safety building adjoining the fire department in Williamstown there was a sound engineer who got up and spoke about putting up a wall to act as a Sound-Noise BARRIER .

Nothing has been done for a Sound-Noise BARRIER since ! You can literally see from this Trucking lot to Economy Drive which is a wide open space for Sound - Noise to travel. Please make a site visit and you will see exactly what I am saying . So when will a Sound-Noise BARRIER be installed ?

Also another violation that happens frequently is the working on trucks in the shop on State , Federal holidays and Sundays which is not suppose to be happening . I have videos ,pictures to prove this.

Can I be granted 1 Holy ,Sacred day-SUNDAY to be Sound - Noise free ?

#### CONCLUSION

Why do we have act 250 ?

A Shop-Garage can be built over sized than the permit states and just label it “AS BUILT “ ?

The original permit stated most of the trucks parked in the shop , measure shop square footage and square footage of trucks and see how UNTRUE this is . Just make a site visit and you will see .

Put a driveway in Rear of shop when it is not in the permit at all and label it “ AS BUILT “ ?

PLEASE answer my questions .

THANK YOU

DAVID GAUTHIER
