Subject: Comment on Harrison Concrete

I feel I must comment again on the violation of hours of operation at Harrison Concrete and Redi-Mix. I think the violations speak for the disregard the Company has for the legal binding conditions they agreed to with the State and the Town. As a close neighbor to this company I have had to live with the constant noise from the plant and the vehicles arriving and leaving, especially the vehicles that arrive or leave the plant after 6:00PM. These are not just company pickup trucks and employee cars. They are cement trucks, form trucks, and crane trucks. All trucks that are used in the operation of the concrete business. At this time I would like to address Mr. Harrison's comment about the 3 distinct and separate procedures that take place with ready mix concrete plant operations, especially number 2 and number 3. I can honestly tell you I don't believe I have ever witnessed a delivery truck or a garbage truck enter or leave after the 6:00 o'clock PM hours. As I stated before I have witnessed plenty of the operations trucks come and go after the 6:00 o'clock PM hours. I have even witnessed trucks full of chopped corn enter the scales after hours on Saturday at the plant but never a truck that appeared to be a delivery or garbage truck. I feel when a company such as Harrison Concrete and Redi-Mix decided to move in to an established residential neighborhood the least they can do is conform to the permit rules they agreed to before they started operations.
